### Special Features

The open holes on the front 9 are short but they have a nice mix of hills, grassy fairways, and trees.

### Miscellaneous

1) Holes 7-16, in the woods, failed to take advantage of the elevation changes on the hills. 2) There is some mud and erosion after a rain or snow melt. 3) There's an apartment complex behind #14's basket and 15's tee.

### Holes Birdied

1, 3, 7, 10, 12, 13, 14, 18

### Favorite Hole(s)

16. Downhill, scenic in the trees, with a good elevation drop.

### Toughest Hole(s)

5. The longest hole at 290 ft.

### Comments

A nice short course that is designed for Red level players, especially beginners, recreational players and Juniors. I think they could have made better use of the hills for holes 7-16.
